Sully continues to love dock diving more and more. He always has such a great time up on the dock. With his passion for the sport, I continued letting him compete. He has found his passion and begs to be up on the dock. He will now jump, just to jump. He doesn't even need a toy being thrown to jump.

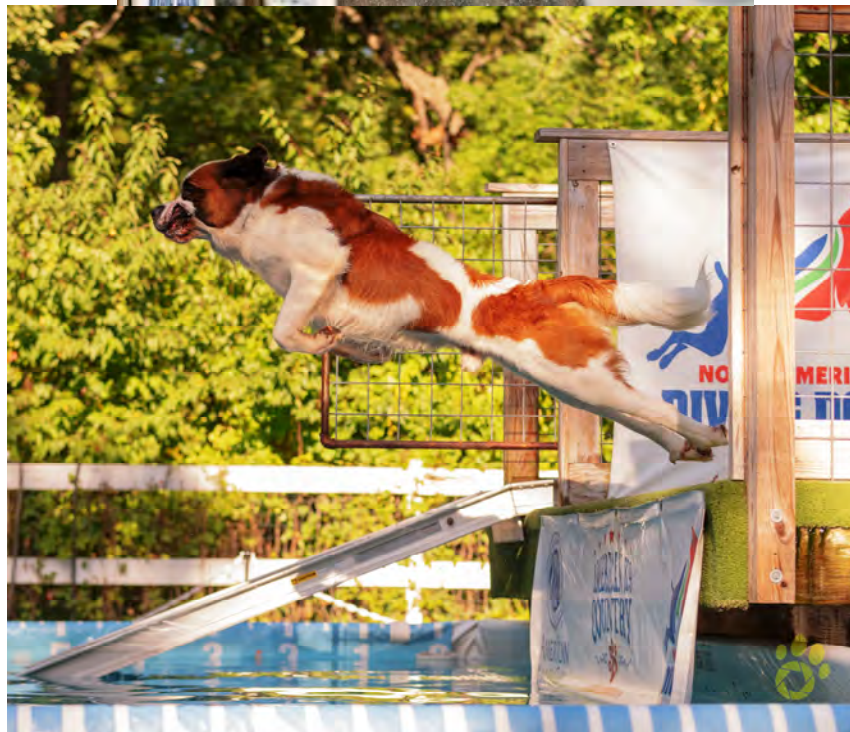

We continued competing during the summer of 2020. It was really the only sport still happening this summer, which made it a perfect opportunity to compete almost every weekend. His jumps are consistently in the senior range of 15' to 19'11". His consistency led him to receive his Dock Senior Advanced Title on August 14, 2020. This title requires 30 legs in the senior range.

This title was extra special because an advanced title in dock diving also earns that dock an invite for the National Championship. So not only was Sully the first to receive this title, he also is now the first Saint Bernard to ever receive an invite for the National Championship!

I continue to be amazed by Sully and his drive and passion for this sport.
