Sully continues to love dock diving more and more. He always has such a great time up on the dock. With his passion for the sport, I continued letting him compete. He has found his passion and begs to be up on the dock. He will now jump, just to jump. He doesn't even need a toy being thrown to jump.

Our 2020 season had come to a close, but we were lucky enough to receive an invite for the 2020 National Championship. So we had another chance to be up on the dock together and compete. The National Championship was held regionally because of everything Covid happening. So we got to compete in Connecticut on the North East Mobile Dock on October 1, 2020.

This was a very special trial. Sully was the first Saint Bernard to jump at NADD Nationals. He hit 100 career jumps. On top of all that, he also earned his Dock Senior Excellent Title! This title requires 55 jumps ranging from 15' to 19'11". It got even better because this title also earns a dog an invite for the next National Championship! So Sully now has an invite for the 2021 National Championship! Making him the first Saint Bernard to receive back to back invites for NADD Nationals.

I will continue to be amazed by Sully and his drive and passion for this sport.
