Sully's love for Dock Diving is stronger than ever. He continues to live for jumping off the dock in any format. Since he loves it, we keep doing it. Sully loves this sport and will do anything to get that toy.

I was able to find an indoor dock to allow him to keep him jumping during the cold months in New England. This also allowed him to keep accumulating legs towards this title. One of our outdoor docks opened and he needed only one more leg for the DSX2 Title.

The Dock Senior Excellent 2 title requires 80 legs in the senior division (15`0"-19'11") He got the title on May 16th, 2021. NADD tradition is when you get a title you jump off the dock with your dog. So Sully got an extra jump and I got to jump into pretty chilly water at 9 am. five legs in the Novice division, which is 21.000 - 39.999 seconds.
