By Kimberley Goodwin

Dino, AKA Fuzzy Bear`s Amore`, is a blessing. He is the dog who got me into the dog sport world. Without him and his breeder, I would have never of known of all this amazing things you can do with your dogs.

Dino has never let me down and is so willing to work for me. He may be pushing 200 lbs, but that doesn`t stop him. Sometimes we have to get a bit creative, but he will do anything asked of him.

I knew since I got Dino, we would have to try some obedience. He is a wonderful dog, who loves to be at my side. BN was a great start for us, since we are both new to obedience. Due to lack of trials and boredom at home we gave the virtual obedience a shot! In order to get the title BN-V2, the dog needs six qualifying scores.

The points are as follows

Heel on Leash for 40 points
Figure Eight for 40 points
Sit for Exam for 40 points
Sit Stay for 40 points
Recall for 40 points
Total Possible 200 points

170 needed to earn a qualifying leg

Dino passed each leg we submitted! Quickly earning him the BN-V2 Title! I am so grateful to have Dino to try this with!
