Sully`s love for Dock Diving is stronger than ever. He continues to live for jumping off the dock in any format. Since he loves it, we keep doing it. Sully loves this sport and will do anything to get that toy. I was able to find an indoor dock to allow him to keep him jumping during the cold months in New England. This also allowed him to keep accumulating legs towards this title. The Dock Senior Excellent 3 title requires 105 legs in the senior division (15`0"-19'11") He got the title on July 30, 2021.
