By Kimberley Goodwin

Sully's love for Dock Diving is stronger than ever. He continues to live for jumping off the dock in any format. Since he loves it, we keep doing it. Hydrodash is one of the disciplines in dock diving. This requires the dog to jump off the dock and swim towards the toy at the end of the pool. The score comes from the time of them jumping, grabbing, and swimming back to the dock. The faster the time is the higher the score. Sully loves this sport and will do anything to get that toy

The Hydrodash Junior (HDJ) title comes when the dog gets five legs in the Novice division, which is 18.000 - 20.999 seconds

Sully got this title during our big trip to Florida. He was competing in the FCAT invitational. However, NADD was hosting an event too and I couldn't not enter sully for some dock diving! To my surprise, Sully swam two of his best times ever for a new title! I was so shocked because after a week of competing, I truly thought he'd be exhausted but instead it charged him up!
