AKC started a new title program, Fit Dog in January 2023. They announced this a few months prior so people could start keeping logs. The goal with these titles was to get you out and about with your dog and keeping them, well fit. (As the name implies)

There are 3 levels with 3 different criteria. Each one getting slightly more involved with the last.

All of my dogs love to go out and do things, so this was easy for them. I just had to start keeping track of what and when we did things.

Dino already has a load of titles, so I used some of those towards the check list. I also used walks, swimming, and weight pull towards the other ones. Dino is truly a working dog and we loved doing these together.
